REBELS MAKE A CAPTURE.

BURN THE GUNBOAT URDANETA AND MAKE PRISONERS OF THE CREW. and Nine Men Ambushed at Orani on the Northwest Shore of Manila Bay-Englishmen Bring News from the Rebel Liues-Fromised Release of Prisoners.

Special Cable Despatch to THE SUN. Manilla, Sept. 25.-A boat's crew of the Petrel proceeded down the Pasag River this morning and found the wreck of the gunboat Urdaneta. which had been burned and scuttled by the insurgents. The wreck was lying opposite Oran The boat had not been heard from for ten days A Colt automatic gun, a Nordenfeldt and one 1-pounder had been taken off. One officer and the crew of nine were missing.

The Urdaneta had been patrolling the north shore of Manila Bay, and her long-continued absence caused great anxiety. It was thought that her coal had been exhausted, and it was decided to search for her.

Natives who were interrogated by Lieux Franklin of the gunboat Laguna de Bay told that officer that the Urdaneta had bombarded the town of Orani on Sunday. The crew had landed to take possession, when they were seized by a large body of insurgents who had laid a trap for them. According to the natives. the prisoners were removed to Porse, and the gunboat was at once looted and scuttled.

Two Englishmen, who say that they were wrecked in an open boat last July and held as prisoners by the insurgents at Vigan, in the northern part of Luzon, entered the American lines this morning. They brought a message from Gen. Pantaleon Garcia to the effect that fourteen Americans, who are held by the insurgents as priscners at Tarlac, will be released next Wednesday in accordance with a decree of the insurgent Congress. It was stated that other prisoners who are ill would be released as soon as their physical ndition would justify such a course. The insurgents also sent word that the cause of the delay in the release of the prisoners was because they (the rebels) could not furnish the

American prisoners with suitable clothing. The Englishmen also brought a message from Gregorica Gonzaga, the President of the Filipino Commission, that came through the lines some months ago for the purpose of holding a consultation with Gen. Otis regarding a settlement of the rebellion. Gonzaga sent word to Col. Smith of the Twelfth Infantry, who is in command at Angeles, that he had made the most diligent inquiry all over the island of Luzon, but had been unable to find any trace of Major Rockefeller of the Ninth Infantry, who disappeared in a mysterious manner shortly after the arrival of his regiment at Manila. It was stated at first that Major Rockefeller wandered beyond the American lines and was taken prisoner by the insurgents. Later it was announced that he was alive and well and was held as a prisoner by the rebels.

The Englishmen say that three of the American prisoners with the Filipinos at Vigan are a sergeant of some regiment, a corporal of the California regiment and a negro who offered to acc. , ca commission in the insurgent army.

Lieut, Gilmore and his men, according to these Englishmen, are still at Vigan, but will be released later. Gilmore and the sailors each receive an allowance of 20 cents a day for food. Five Japanese Army officers, according to the story told by the Englishmen, are assisting the insurgents in the north. The crops are plenti-ful and the army is enthusiastic, but the organization is poor and the discipline slack. It is believed that the rebels will retreat to the mountains when the Americans advance, as they fear the cavalry particularly.

The railroad will have to be used carefully, as long stretches of track have been destroyed. A bridge at Bandan has been thrown down and the insurgents have strung defences in front

The transport City of Puebla arrived here to-day from San Francisco with 618 recruits. WASHINGTON, Sept. 25,-The Navy Department has not received any official confirmation of the press report that the United States gunboat Urdaneta has been captured by the

The Urdaneta is a forty-ton launch taken from the Spaniards by Admiral Dewey. The last report from Rear-Admiral Watson concerning the personnel of the Asiatic fleet gave Cadet Wilborn C. Wood as her commander. Cadet Wood was appointed to the Naval Academy from the Ninth district of Georgia by Representative F. C. Tate. His home address alem. Pickens county, Ga. He entered the Naval Academy on Sept. 6, 1895, and left there last January to join the battleship Oregon for the two years' cruise requisite to final graduation. He went on the Oregon to Manila.

DESPATCHES FROM GRN. OTIS.

Insurgents in Ilollo Surrender-Overtures from the Chief of Panay Island.

WASHINGTON, Sept. 25.-Several important cable despatches from Gen. Otis were received at the War Department yesterday and to-day. In one of them Gen. Otis tells of the surrender. at Iloilo, of a number of armed insurgents, and overtures made by the Chief of the Island of Panay for formal submission, conditional on certain promises to be made by the Americans The despatches show that the insurgents were told that no arrangement was possible until the chief had surrendered and disbanded his

In a later despatch Gen. Otis describes the situation in the Island of Zamboanga. From Gen. Otis's report it appears that the dates of the island continue to follow the example of their chief, Dato Mundi, in offering allegiance to the American flag. It is evident that the datos are anxious to make trouble for the insurgent forces on the island, and Dato Cagayan of the Sulu Islands has signified his desire to replace the Spanish flag by the American flag. Gen. Otis says that this will be done. The des-patches follow:

MEDICAL DIRECTOR TRYON RETIRED. He Was With Farragut at Mobile and Was

for Four Years Surgeon-General of the Navy. WASHINGTON, Sept. 25,-Medical Director J.

Bufus Tyron was placed on the retired list of the Navy to-day on account of age. This is his sixty-second birthday. Dr. Tryon was for four years the Surgeon-General of the Navy. He served through the Civil War and was with Farragut at Mobile. During the cholera epi-demic in Japan in 1871 he was in charge of the United States Naval Hospital at Yokohoma and two years later had charge of the naval yellow faver hospital at Pensacola, Fla., when there was The Venezuela Government decorated him for his services to the sick and wounded both factions during the Venezuela revolution. He was the representative of the United States Navy at the International Medical Congress at Madrid just before the war with Spain. For

more than a year he has been the general inspector of naval hospitals. Dr. Tryon is a native of New York city and will make his future home there.

In appearance Dr. Tyron was one of the most striking men in the naval service, which is noted for good-looking officers. He was very tall and straight, rather slight in build, and dressed with scrupulous care. He appeared to be indifferent to provailing styles and wore clothes of his own design, which, however, were always becoming and never in bad taste. During his residence here as Surgeon-General of the Navy he was very popular socially and officially.

PROSPERITY DELAYS NAVAL WORK. iteel Mills Unable to Get out Material for the New Warships. WASHINGTON, Sept. 25 -National prosperity s making the Navy Department very unhappy

these days. Those officials who are immediately concerned in the construction and outfitting of new warships are willing to have a little less prosperity. Nearly every firm that obtained a contract for building torpedo boats or torpedo boat destroyers recently asked the Department to extend the limit within which its special vessel or vessels must be finished. The Naval Board on Construction has decided that these requests need not be passed on now, and that they may not be taken up for consideration until the time for the completion of each orpedo craft approaches. Then, if the plea now made is still applicable, the extensions will be granted.

The contractors all hold the prevailing pros-perity accountable for the delay. They say that the steel mills are working overtime, and yet cannot get out the material needed for the onstruction of the little vessels. The steel companies, they say, have told them that no

construction of the little vessels. The steel companies, they say, have told them that no deliveries can be made under six months. None of the steel companies will make contracts with shipbuilders containing a clause providing that the steel companies shall pay a penalty if deliveries are not made within a specified time.

Inquiry at the Navy Department to-day showed that the officials there believe that it will be necessary to grant the extension. No delay in armor construction is anticipated on account of the crowded condition of the steel plants, as those firms which have special facilities for making armor work almost entirely for the Government and their armor plants are not working overtime. The new armored ships which will be recommended by the Navy Department this year will be designed with special reference to the use on them of Krupp armor, which is lighter and just as effective as that on armored ships now in commission. Two firms in this country have secured the right to manufacture armor by the Krupp process, so there will be no difficult in obtaining plenty of it if Congress will authorize its purchase at the price for which the armor-making companies are holding out. It is feared, however, that the prevailing prosperity in the steel business may make the armor concerns less anxious to be liberal in dealing with the Government and anotheriong delay in making contracts may occur. Another cause for worry among the naval officials is that the price of Krupp armor abroad has advanced. Armor treated by that process was offered to the Navy Department for \$540 a toa, while France is now paying \$700 at ton for it.

The inability of the steel companies to supply more material may cause delay in the construction of the six cruisers that were authorized by Congress at its last session. All these vessels require a great deal of steel in construction.

TROOPS FOR THE PHILIPPINES,

367 Officers and 8,976 Men Are Expected to

WASHINGTON, Sept. 25 -Owing to the delays in the departure of several of the transports and the necessity for securing a new transport in the place of the Anglo-Australian, which is to be used by the British Government, a new schedule showing the proposed departure of transports with troops for Manila has been prepared for the consideration of the Secretary of War. The statement divides the transports into two fleets, one of which has a carrying capacity of 307 officers and 8,976 men. This fleet will take the six regiments remaining of the first ten organized and 1,000 recruits in addition. The regiments scheduled to go are the Twenty-eighth, Twenty-ninth, Thirtythe Twenty-eighth. Twenty-ninth. Thirty-first. Thirty-second. Thirty-third and Thirty-fifth, making 7,854 men. The next transport to leave San Francisco, according to the new schedule, will be the Charleston, which is expected to sail on Wednesday with 450 men and 20 officers of the Thirty-second Infantry. The tilenogle and the Sheridan are scheduled to leave on Thursday, the former with 800 men and 25 officers and the latter with 1,700 men and 25 officers and the latter with 1,700 men and 25 officers.

On Sunday the Sikh and City of Rio will probably leave Portland, Ore, the former with 850 men and 30 officers of the Thirty-fifth Infantry, and the latter with 845 men and 40 officers of the Thirty-second Infantry. The Hancock and 0) mpin are scheduled to leave the same day from San Francisco, carrying between them 1,000 men and 80 officers. On Thursday of next week the following transports are expected to sail: Valencia, 560 men and 15 officers: Victoria, 800 men and 30 officers. Manauense, 560 men and 15 officers.

According to the statement prepared to-day the movement of regiments numbered Thirty-sixth to Forty-fifth will begin about Oct. 10. For these regiments the Department has now thirteen transports engaged, with an aggregate carrying capacity of 11.836 men and 450 officers. This includes the Duke of Fife, which Major Long expects to secure in place of the Anglo-Australian, and still leaves 1.254 men for whom to provide transportation. Accordingly, orders have been issued by Quartermaster-General Ludington, looking to the chartering of more vessels, with a view to providing transportation for between 1,500 and 2,000 troops. first, Thirty-second, Thirty-third and Thirty-

EFFECT OF THE TOBACCO TRUST. Member of the Tobacco Union Says It Has

Reduced Wages and Closed Factories. WASHINGTON, Sept. 25.-E. Louis Evans of the Louisville Tobacco Union was a witness before the Industrial Commission this morning. He said his Union had 4,000 members and was constantly growing in the South and West. It was open to men and women alike, white and black. About 50 per cent. of the white and black. About 50 per cent. of the members were employed in factories, where the women received the same wages as the men, bince the formation of the Tobacco Trust he said, wages had been reduced, in some places being cut from \$2.25 per day to \$1.25. While the wages were good in some places they were very low in others. Three big factories in 8t, Louis had been closed, throwing from 600 to 700 employees out of work. It was impossible for the small desiers to embark in the tobacco business at present, owing to the strength of the trust and the amount of capital necessary.

STRIKE PLANS IN HAVANA. LEADERS THREATEN A GENERAL

Butchers and Bakers Promise to Strike and the Leaders Hope to Starve the Employ ers Into Granting an Eight-Hour Work ing Day-Cubans Raid Spanish Club

TIE-UP THIS MORNING.

Special Cable Despatch to THE BUR. HAVANA, Sept. 25.-The general strike o workmen scheduled for to-day did not naterialize. The labor leaders state that the inauguration of the strike was put off for a in order to effect a better organization This has been done, the leaders say, and the strike will be started to-morrow morning. The leaders boast that they have received as surances from various labor organizations which guarantee that the whole town will be

tied up to-morrow morning. The leaders spent the day in working on all the trades organizations, and reported to-night that the cabmen and draymen had been prevailed upon to join the strike. The tobacco workers, printers and street-car employee

atill refuse to go out. The members of all other trades—the bakers butchers, longshoremen, machinists, laundry men, shoemakers, the employees of th gas companies, the leather workers, the oignrette makers, street-cleaning employees icemen, carpenters, house-painters and masons—are already pledged to go out The town is placarded with posters calling on all workmen to stand together. Some of these posters read: "Our watchword is eight hours

So far as known the authorities have taken no step in the direction of settling the trouble by a compromise between the employees and the men. Every precaution has been taken

however, to preserve order. The strikers are somewhat afraid that Gen. Indiow may attempt to coerce them. As a precaution they have appointed a subsidiary strike committee so that, if the present leaders are arrested by Gen. Ludlow, the new commit tee can take their places. The general belie is that, while the strike is sure to come, the strikers cannot control such a mass of men The number of men involved is about 20,000 and if the plans of the leaders are carried out the business of Havana will be paralyzed. If the butchers and the bakers really go on strike the situation will be serious. The main reliance of the agitators is on these men and they say if the butchers and bakers go out the strike will be won in twenty-four hours or the people of Havana will starve.

Yesterday several young men, including Julio Sanguilly, a son of Gen. Manuel San-guilly, invaded a club of Spanish clerks and hauled down the Spanish flag. The police were appealed to and the flag was hoisted again. To-day the Spanfards demanded Sanguilly's arrest but the authorities did not grant their request. The Spanish Consul-General, Seflor Segrario, filed a protest with Secretary

The Spaniards are very much worked up over this affair. The secret police say the Spaniards are quietly securing arms and that they will not allow any more Spanish flags to be hauled down without a fight.

The feeling between the Cubans and Spaniards appears to be growing more bitter every day. The Spanish newspapers are becoming more abusive and the Cuban journals are threatening violence. The whole trouble started with the attempted lynching of some Spaniards by the Cubans a week ago yesterday. On that day the bodies of Gen. Antonio Maceo and Lieut, Francisco Gomez were disinterred from their temporary reating place and taken with greatceremony to the cemetery at Bejucal. with great ceremony to the cemetery at Bejucal. Meantime the Spaniards were enjoying a banquet at Regla. The Cubans thought this was intended as a mark of disrespect toward Macco and Gomez and attempted to lynch a number of the Spaniards. Consul-General Sagrario is doing all he can to prevent any trouble, but the violent element among the Spaniards appears to have lost confidence in him owing to his pacific course. There are rumons now that Señor Sagrario is about to resign.

TRUSTEES PAY THEMSELVES WELL. Nearly 860,000 of American Grocery Funds Paid Out-Accounting Ordered.

Vice-Chancellor Pitney in Jersey City yesterday sharply criticised the action of the four trustees of the American Grocery Company, an insolvent corporation, during the hearing of an application made by counsel for the preferred stockholders for an order compelling the

ferred stockholders for an order compelling the trustees to account for \$80,000 collected by them. Lawyer C. H. Hill. in making the application, declared that of the \$80,000 only \$1,000 had been turned over to the receiver, Walter L. McDermott.

The remainder had been paid over to trustees as salaries and for legal expenses. Mr. Hill said that T. L. Marsalis had in eighteen months paid to himself as salary \$18,778.75. Said Vice-Chancellor Pitney: If these trustees did as reported it would appear as if an investigation were needed. These allegations are suspicious, to say the least:

He then signed an order for an accounting to be made before Dec. I.

The trustees are T. L. Marsalis, David Scott, A. B. Andrews and T. S. Meyers.

TEXAS'S INFITATION TO SUZZER. He Is to Have Unlimited Time and His

Choice of Subject for an Oration. Dallas, Tex., Sept. 25.-The general committee, in making up its final list of speakers at the Democratic national carnival to be held at the Democratic national carnival to be held in Dallas on Oct. 2 and 3, have selected O. H. P. Belmont and Congressman William Sulzer of New York among the principal orators. Each is to have unlimited time and the choice of his aubject. Mr. Sulzer is expected to address the labor mass meeting arranged for the alght of Oct. 2. He and Mr. Belmont are also scheduled for responses to toasts at the dollar dinner on the night of Oct. 3. A telegram was received from Mr. Belmont to-day stating that he will reach Dallas next Sunday night.

TO SLEEP SOUND

Leave Off the Coffee.

A city solicitor for a grocery in Americus Georgia, reports that in calling upon a Mrs. W. F. Marsh, found her complaining greatly about the loss of sleep and nervousness in the family. He suggested that perhaps the trouble was caused by coffee drinking, and advised that they use Postum Food Coffee in its place. A box of the new Food Coffee was sent down to them, and at a call the second day, Mrs. Marsh stated that about three o'slock in the morning she was auddenly awakened by her husband jumping up to dress, stating that he must get off to work. She looked at the clock and told him it was only three o'clock, and he must have made a mistake. He said he felt there was certainly something wrong with the clock, for he had slept his usual time, was perfectly refreshed and had his night's rest out. The good sound sleep continued night after night after leaving off the coffee and using in its place the Postum Cereal Food Coffee.

The solicitor further says, "I told this experience of Mr. and Mrs. Marsh to Mr. H. F. Davenport, and after the first night's trial, he told me he had never slept better in years. Mrs. Davenport was in the store this afternoon, pronouncing it wonderful. Bome of the doctors here are strong advo-

cates of Postum Food Coffee. One lady, Mrs. W. H. Howard, buys it by the dollar's worth, and is getting all her guests and acquaintances to use it. The president of one of our banks uses Postum Cereal Food Coffee to the exclusion of all other beverages. It meets with the approval of some of our best citizens." T. 700 CHINESE LAND AT MANILA. Gen. Otis Has No Power to Exclude Them Except for Military Reasons.

WASHINGTON, Sept. 25.-Gen. Otis reported the War Department by telegraph to-day that the 700 Chinese who were detained on ship board by him on his application of the Chinese Exclusion act to the Philippines, had been permitted to land. The Chinese Minister to the United States called on Dr. Hill, the acting Secretary of State, this morning and was informed of Gen. Otis's action. Later on the State and War Departments gave out this joint statement: "The Chinese from Amoy, on the steamers Esmeraida and Salvadara, about half of them being previous residents of the Philip

pines, have been permitted to land, owing to the special circumstances of the case, on the promise of the Chinese Consul-General at Manila that no more Chinese will leave Chinese ports for the Philippines qualified to land under existing War Department regula-

The action of Gen. Otis in permitting the Chinese to land has disposed of the case at issue to the satisfaction of all the parties concerned. The officials who were at first inclined to regret that the incident arose, are now glad that it was brought up at this time. as it gave the opportunity for reaching an understanding with the Chinese Governmen n a matter which might have proved a course of constant embarrassment to the Administration, owing to the misunderstanding that existed in regard to the application of the Exclusion act to the Philippines. In issuing his order to that effect, Gen. Otis said that the previsions of the Exclusion laws of the United States were applied to the territory under his control. This is regarded by the Administration as an unfortunate announcement and, as subsequent events showed, not quite what teen. Otis intended to convey. He has the right to exclude any class of persons or any individual from the Philippines as a purely military measure, but it is held by officials here that Gen. Otis has no authority to apply the legislation of Congress to the islands until Congress has so specified. It is also conceided by the Administration that the President is equally powerless to apply the laws of the United States to the Philippines without the authority of Congress to do so.

The Administration, however, supports Gen. Otis in his explanation that the exclusion of Chinese from the Islands was a purely military measure. He has the right to adopt my means he may desun necessary to maintain the authority of the United States, but such action must be based on military reasons.

The State Department has explained to the Chinese Minister that the action of Gen. Otis was not intended as a discrimination against Chinese subjects as such, but as a military necessity. He was told that the exclusion amplies equally to all other persons, without regard to nationality, whose presence in the Philippines at this time might be a detriment to the maintenance of American authority. Gen. Otis has explained that owing to the danger of a fight between the rival Chinese factions in Manila, of which the Texals might take advantage and attempt to burn the city and massacre the Americans, he had issued this order forbidding any more Chinese to land. This was a purely military reason, and its propriety is conceded by the Government. existed in regard to the application of the Exclusion act to the Philippines. In issuing

JUSTICE OF THE PEACE IN JAIL. Carpenter of Highland Falls Convicted of

Assisting a Prisoner to Escape. NEWBURG, Sept. 25 -- Ezek C. Carpenter, justice of the peace, and general advisor of the people at Highland Falls, who has had an interesting career, has at last come to grief. Six years ago he pleaded guilty to aid ing and a spetting a prizefight in the saloen of Jim Shea, who now conducts a business in Harlem, and was fixed \$25. Afterward the General Term impeached him and he was removed from the office of justice. He again went before the voters of the place and was re-elected, and to-day he was put on trial in Judge Heattle's County Court under an indictment for assisting a prisoner, one Hoser, to escape from an officer at Highland Falls. Hoser was incharge of Constable Eliers, who had taken him before Justice Rhinehart. Carpenter appeared and told Hoser to go, and, it was alleged, pushed him out of the courtroom.

The jury to-day was out ten minutes only, and returned a verdict of guidty. On hearing the foreman say "Guilty," Carponter, who is a staiwart man, weighing 200 pounds, turned almost white. To-night he is in the Newburg jail. He was never before locked up. He dispiayed his assurance while the trial was going on by picking up his hat and cane and walking out of the courtroom. The Court had him promptly returned. He will be seatenced tomorrow. For many years Carpenter has been at the head of Democratic politics in Highland Falls, and his sway has been powerful. ing and abetting a prizefight in the saloon of
